## Work

### Senior Web Developer • Rubrikk Group AS

#### 2022 - Present

- Worked on the [Laikado.es](https://laikado.es), a spanish real estate and vehicles aggregator portal. My part was implementing the whole design, optimizing the backend (written in NodeJS) so we deliver excelent performance when visited by users and also by Google;
- Working on the company's portals, improving and maintaining them. Assuring that the performance of the websites are maximum in the Google's Lighthouse tool.

### Freelancer

#### 2017 - Present

- Working on [PanoroCRM](https://panoro.ro), a CRM application created for real estate agencies with module for managing offers, publishing them to different portals, analytics, module for managing contacts and other modules. The application's backend is constructed as microservices for easy scaling when required;
- Created different web applications for real estate agencies providing complete solutions from backend and frontend to releasing and maintaining the applications like [imocentral.ro](https://imocentral.ro) and [panoro.ro](https://panoro.ro).
